

CHILL-V CDS0657 **For Vaporizer Systems**
AIRLINE ANTI-FREEZE COMPOUND
WITH ADDITIVES

POISON
DANGER! FLAMMABLE! VAPOR HARMFUL! CANNOT BE MADE NON-POISONOUS. KEEP OUT OF REACH OF CHILDREN. USE ONLY WITH ADEQUATE VENTILATION. Avoid prolonged or repeated breathing of vapor. Keep container tightly closed and away from heat, sparks and open flame.

ATTENTION!!
PARTIALLY FULL OR EMPTIED CONTAINER MAY CONTAIN EXPLOSIVE VAPORS. KEEP AWAY FROM HEAT, SPARKS AND FLAME. DO NOT CUT, WELD, BRASE OR SOLDER ON OR NEAR THIS CONTAINER. DO NOT REUSE THIS CONTAINER FOR ANY PURPOSE.

DANGER!
SELLER MAKES NO WARRANTY, EXPRESS OR IMPLIED, CONCERNING THIS MATERIAL OR THE USE OF THIS PRODUCT OTHER THAN INDICATED ON THE LABEL. BUYER ASSUMES ALL RISK OF USE AND/OR HANDLING OF THIS MATERIAL WHEN SUCH USE AND/OR HANDLING IS CONTRARY TO LABEL INSTRUCTIONS.

POISON
First Aid - Call a physician immediately. If swallowed, induce vomiting if directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Contact poison control center. For eye contact, hold eyelids apart and flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately. For skin contact, remove material and flush affected area with water. In case of inhalation or suspicion of inhalation, move patient at once to fresh air and call a physician. Call a physician immediately in case of burns, especially to eyes, nose or throat or if patient is unconscious.

Drum Storage & Handling
Wear goggles or face shield, protective gloves and protective clothing when handling. Do not get in eyes, on skin or on clothing. Do not inhale or swallow. Use ventilation adequate to keep exposures below recommended exposure limits. See SDS. Use NIOSH/MSHA approved respiratory where airborne levels may exceed established limits. Keep bung up to prevent leakage. Keep drum out of sun and away from heat. Relieve internal pressure when received, and at least weekly thereafter by slowly loosening bung. Re tighten immediately. Drums should be grounded when being emptied. Do not drop or slide across sharp projection. Never use pressure to empty. Drum is not a pressure vessel. Replace bung after each withdrawal.

KEEP OUT OF REACH OF CHILDREN.

CHILL[®]
and **CHILL-V**[®]

Original CHILL and CHILL-V are proven, highly successful air line anti-freeze products from Connexus.

Original CHILL

Original Chill is formulated with a proprietary blend of ingredients to protect and condition intermediate systems such as Tanner Tanks[®]

Original CHILL-V

Chill-V is specifically formulated to condition and operate in electric vaporizer systems such as Frosto[®]

Flexible

Both CHILL and CHILL-V use methanol based alcohol as the primary carrier and moisture absorber. A special blend of products compounded to protect rubber and synthetic parts in your system and resist corrosion and rust.

Cost Effective Air System Conditioner

For your battle against air line freeze-ups, these products are your best time proven, cost effective solutions.

Successfully used for three decades throughout North America.
